

ROMAN SHADES

Roman shading system

Roman shades give you the advantage of using your own material, while still reaping the benefits of Lutron technology. This style gives you a lot of flexibility not only in fabric options, but also in the number of pleats you want. Work with your local Lutron shade specialist to achieve the ultimate design for your space - from the perfect fabric to the number of pleats.

Precision control

Like the other styles of Lutron shades, Romans feature intelligent hembar alignment, which synchronizes all shades/window coverings in one room or throughout a home.
